# Introduction

At Alvi Group, we emphasize respect and professionalism towards clients, as well as our own colleagues. For us to thrive, we strictly adhere to our Code of Conduct. This means prioritizing the health and safety of everyone involved in our business. Ensuring that our business is conducted in a legal, ethical, and sustainable manner is incumbent for us as a company.

Alvi Group AS' Code of Conduct ("the Policy"), including whistleblowing routines, anti-bribery and anti-corruption policies, and comprehensive environmental and social guidelines, sets forth our commitment to fully comply with all applicable laws and regulations. We strive to prevent and detect bribery and corruption wherever it may arise, uphold strong environmental stewardship, and promote social well-being in all our operations. The Policy also includes routines on how internal and external personnel can report issues in a safe and protected way. We have taken a zero-tolerance approach to bribery and corruption in all our subsidiaries, and are committed to act professionally, fairly, and with integrity in all our business dealings and relationships.

This Policy applies to all persons working in or in relation to our companies, including employees at all levels, directors, and external consultants. The Policy is signed by all our employees as an attachment to their employee contracts.

Failure to comply with anti-corruption laws and regulations, as well as our environmental and social responsibilities, can have serious consequences for Alvi Group and its employees. That could mean actions such as very large fines, immeasurable damage to reputation, and even criminal sanctions such as imprisonment. Consequently, Alvi Group employees and business partners must take great care in exercising good judgment and never put themselves or others into a position which may violate this Policy.

This Policy is made available to all employees, and all employees shall be informed of the policy when joining Alvi Group. Furthermore, awareness raising and informing around the content of the policy shall be done whenever there is an update. If no update has been made to the policy, internal orientation shall be conducted on a bi-annual basis. The CEO is responsible for implementing the Policy, and the CFO is responsible for updating the policy whenever deemed necessary.

# Definitions

---

*Bribery* refers to the offering, giving, soliciting, or receiving of any item of value as a means of influencing the actions of an individual holding a public or legal duty. This type of action results in matters that should be handled objectively, that is being handled in a manner best suiting the private interests of the decision maker. Bribery constitutes a crime and both the offeror, and the recipient can be criminally charged.

*Corruption* is the abuse of power for private gain. Corruption takes many forms, such as bribery, trading in influence, abuse of functions, but can also hide behind nepotism, conflicts of interest, or revolving doors between the public and the private sectors. Its effects are serious and widespread. Corruption constitutes a threat to security, as an enabler for crime and terrorism. It acts as a drag on economic growth by creating business uncertainty, slowing processes, and imposing additional costs. Although the nature and scope of corruption may differ from one EU State to another, it harms the EU by lowering investment levels, hampering the fair operation of the Internal Market and reducing public finances.

*Conflict of interest* is when you have a personal or outside interest that conflicts with the best interest of the company you represent, that is Alvi Group and our subsidiaries. A personal interest could be a financial interest in another company or in a transaction, a personal relationship, including but not limited to immediate family, or any interest or relationship that could improperly affect our judgment and decision-making.

*Whistleblowing routines* is a guideline for our employees and external personnel on how to report if anyone have a suspicion of a violation of the items set out in this document .

# Scope

- We will not select someone to provide services to, directly or indirectly, obtain an improper advantage or improperly influence or encourage a decision or action.
- Neither will we offer indirect incentives, such as those made to family members.

- Special care must always be taken with public officials as the rules on bribery are stricter than with private business relations.
- The following benefits will always be deemed improper:
  - monetary gifts, loans, and vouchers

- Employees may not offer charitable donations, donations to political parties, or sponsorships in any form in the name of Alvi Group without approval from the CEO
- Employees may voluntarily participate in a political process. However, you may never use Alvi Group funds, assets (included, but not limited to social media channels or e-mail), services, or facilities to support any political party and shall always make clear that any expressed political view is your individual view, not the view of Alvi Group

# Enforcement

---

Failure to follow the principles and steps set out in this Policy may result in disciplinary action, up to and including termination. In addition, breaches of anti-bribery or anti-corruption laws can have severe financial and reputational consequences for Alvi Group. Employees, who are involved and implicated in the breach, risk imprisonment and personal fines.

# Whistleblowing Process

If any questions or concerns arise regarding this policy or its application to a specific situation, employees are expected to seek guidance from their manager and, if necessary, the CFO.

If you are offered a bribe or are asked to make one, or if you suspect that any bribery, corruption, or other breaches of this policy has occurred or may occur you must raise the concern immediately. Reports made in good faith are never subject to any form of reprisal.

You should normally raise your concerns with your line manager. This may be done verbally or in writing. The concern should include full details and, if possible, supporting evidence. There may, however, be situations whereby an employee feels that he/she is unable to do this, for example when he/she feels that his/her line manager is involved, or that he/she has previously raised the alert and feels that no action has been taken about his/her concern. If the employee is in such a situation, he/she should contact a more senior manager he/she trusts, or the report the concern directly to the CFO. If the CFO is among persons involved, the concern should be raised to the CEO. If the CEO is among persons involved, the concern should be raised to the Chairman of the Board.

External personnel – that is consultants, suppliers, customers or the alike – can send a potential concern by e-mail to [nta@ivgroup.no](mailto:nta@ivgroup.no) where the concern will be handled confidentially. If an internal employee feels uncomfortable with raising an issue as described above, they are encouraged to use [nta@ivgroup.no](mailto:nta@ivgroup.no) to raise the concern as well.
